### Nursery Wall Art for Hometown Kids

August 30, 2010

Tomoko Maruyama's Colors of San Francisco Art Prints

After all these years, you still find the city's steep hills, quaint homes, and majestic bridges nothing short of miraculous. But to your little native, they're as routine as a book before bed.

Inspire awe by hanging one of Tomoko Maruyama's fanciful Colors of San Francisco prints on a nursery wall. Maruyama channels a love for her adopted hometown in drawings of familiar landmarks (the Golden Gate Bridge) and neighborhoods (Alamo Square).

Her whimsical style, soft palette, and playful sense of humor lend these pieces real staying power. We've been obsessing over "Good Luck on the Hill" (a platoon of head-down bicyclists angle their way up a steep city street), "Wave" (a giant wave arcs at one of the Golden Gate

Bridge's towers), and "Bay Bridge" (fireworks in the fog near the Bay Bridge) since we discovered them.

Maruyama creates her drawings digitally and adds depth by printing them on textured watercolor paper. She also signs and mats each one, so all you have to do is frame, hang, and enjoy—until long after the last bedtime story.
