## Get crafty

Pay the rough-hewn woodwork and Chihuly-lite glass art no mind. The **American Craft Show** still is an ideal venue to see true artists selling their individually constructed handiwork. A few examples: San Francisco-based fashion designer Latifa Medjdoub has collaborated with Christian Lacroix, and his influence is apparent in her felt trace jacket (above). Kiwon Wang builds striking jewelry (including tiaras) from bits of paper and pearls. Holly Anne Mitchell even uses the pink section of the *Chronicle* to put together bracelets finished with a moisture-resistant coating. What a relief to have proof that a craft fair doesn't have to be dowdy. AUG. 10-12, FORT MASON CENTER (BET. FISHERMAN'S WHARF AND GOLDEN GATE BRIDGE; ENTRANCE AT MARINA BLVD.
