

SKULLS - NOW OPEN!

July 3, 2014

Enter the California Academy of Sciences "Skulls Sweepstakes" for a chance to win an exclusive Skulls themed tour with a scientist.

>> [ENTER HERE!](#)

Sweepstakes starts July 7!

Every skull tells a story, revealing how vertebrate animals live, die, and ultimately, evolve. In this awe-inspiring new exhibit, walk along a wallscape of sea lion skulls, watch a live colony of dermestid beetles demonstrate their "bone cleaner" skills, and learn how scientists use the Academy's vast collection of skulls to uncover clues about life on Earth.
