## Maxthon Web Browser for iPad – Fast, Secure And Free

BY CHARLES MOORE, ON JULY 31ST, 2012 | PERMALINK

Maxthon Web Browser for iPad is claimed to be the world's fastest & smartest iPad web browser – fast, secure and free.

With more than 550 million downloads of its PC browser, and claiming the highest user satisfaction ratings of its mobile browser, Maxthon Web Browser for iPad is configured to transform the way you surf the web. Specifically designed for the iPad, Maxthon Web Browser for iPad comes with the following features:

- Speed: Maxthon takes complete advantage of the latest iPad hardware and make your web surfing fast
- Cloud syncing: With a Maxthon Passport account, you can access your favorites in PCs and any devices that run Maxthon anywhere and anytime.
- Super gesture: Maxthon brings gesture browsing to its iPad version; now you can surf the web at your finger tips.
- Quick Access: Go to all your favorite websites in just one single tap.
- Tab browsing – Powerful tab management that puts your mobile screen to maximum use.
- Absolutely free and no advertisements
