Museum of the African Diaspora

[Add To Plan](#)

This cultural institution dedicated to preserving and sharing stories of a common African heritage with audiences around the world is temporarily closed as it undergoes an exciting transformation. During the closure, a series of readings, lectures, workshops, panel discussions and author talks titled "MoAD in the Neighborhood" are featured at various locations throughout the Bay Area. MoAD 2.0 is slated to reopen in October with a week of festivities and a new exhibition called "Drapetomania: Grupo Antillano and the Art of Afro-Cuba" running Oct. 8-Jan. 4, 2015.
