

THE SACRAMENTO BEE

Green tip: Give a gift, save a redwood forest

December 13, 2008

Give a gift that could last centuries. The Save the Redwoods League and California State Parks are offering Earth-friendly opportunities this holiday season: Plant redwood seedlings such as these in a state park.

For a \$50 donation, a redwood seedling will be planted in honor of a donor's loved one. A commemorative card will be sent to the recipient. All dedicated trees support the parks' restoration efforts.

This year, the gift-tree program has branched out beyond redwoods to include other varieties.

To place an order, see savetheredwoods.org/give, e-mail membership@savetheredwoods.org or call (888) 836-0005. To help ensure card delivery by Dec. 25, requests should be made by Monday.
