Walmart Opens Valley's Newest Supercenter in Kerman

The new Walmart Supercenter in Kerman officially opened its doors on Wednesday morning.

It's located on Whitesbridge and Goldenrod Avenue. It offers the usual retail departments plus a full grocery store and pharmacy.

The new store employs about 300 workers, most from Kerman or nearby communities.

Shoppers like the convenience of shopping in town.

"I work in Madera so having to come to Kerman to get the kids, then go to Fresno to get what we needed, any last minute things that we needed we had to go to Fresno, and this will avoid that," said shopper Melissa Jurado.

Small business store owners have expressed concern about the competition Walmart brings.

The store is expected to generate between \$65 to \$70-million dollars in sales a year.
