Kerman Walmart opening mid-August

Store manager Emilio Baca's staff is working hard to put the final touches on the Walmart in Kerman slated to open in mid-August.

The 160,000 square-foot Super Walmart, located at 14061 Whitesbridge Ave., will include a staff of approximately 300 employees—the majority of which are from Kerman itself.

Baca indicated the community as a whole has been enthusiastic about the grand opening, including local businesses.

The store will offer a full grocery section as well as retail departments including apparel, sporting goods, electronics, health and beauty, a double drive-through pharmacy and everything associated with a full-service Walmart location.

The store will also get half of its light during the day from sky lighting to cut down on costs and limit the impact on the environment.

“The environment and energy efficiency has been a big concern for not just the city, but the company as well,” Baca said.

The store is expected to serve customers from the west side of Fresno County, as well as some from the southwest portion of the City of Fresno.
