What's Hot What's Cool™

Deep Steep
bubble bath

Fresh Faced

If you are what you eat, then shouldn't you feed your skin with the same healthy regimen? Rinse away last year's woes with Deep Steep's bath teas, body polishes and body butters, infused with essential oils such as lavender-chamomile and grapefruit-bergamot. The all-natural, organic products from Whole Foods Market ensure you're pampering with only the cleanest, purest ingredients. Then polish to perfection with Éminence Organic Skin Care's line of whipped moisturizers and fruit-laden masques. The products are handmade in Hungary, and the fruity pulp is loaded with seeds and stems from handpicked fruits and herbs. They're so natural, you could practically eat them. Draw a Deep Steep honey bubble bath and rest assured that when you're sleeping deep, you know you're doing it au naturel. *Deep Steep, at Whole Foods Market, through deepsteep.com.
