INTERIORS THAT WILL MAKE YOU HUNGRY

EDITORS' CHOICE

Ventana | Native Trails

Stylish and versatile bar and prep sink.

[Read more »](#)

From **Native Trails**, Ventana is one stylish and versatile bar and prep sink. Whether you install as an apron front to show off the sleek lines and organic beauty, an undermount to make it more discreet, or with the rim partially above the counter, Ventana ensures that making cocktails and chopping vegetables becomes the most sought-after task in the house. Ventana is artisan crafted of NativeStone, an innovative, remarkably strong blend of cement and jute fiber that is surprisingly lightweight for concrete, extraordinarily heavy-duty in the kitchen, and refreshingly easy when it comes to clean up.
