Native Trails Introduces NativeStone® Writing Desks

3-Drawer Contemporary Desk is Available June 1

SAN LUIS OBISPO, CALIF. (May 17, 2016) – Native Trails, the eco-chic company renowned for its luxurious kitchen, bath and lifestyle products, announced today its first-ever desk design for the home or office. Offered in two sizes – [60-inch](#) (\$1,925) and [72-inch](#) (\$2,125) – Native Trails’ Writing Desk is an instant classic, with clean lines and a striking balance of rugged yet refined materials.

“At Native Trails, we’re committed to providing sophisticated pieces that combine sustainable, forward-thinking design with both form and function,” said Naomi Neilson Howard, founder and CEO of Native Trails. “The cosmopolitan design of these double-sided open desks fits perfectly into a contemporary, classic or modern office.”

Native Trails’ new Writing Desks are carefully crafted from FSC® certified Acacia, a sustainably grown hardwood, and NativeStone® sustainably-made concrete. The NativeStone’s subtle Ash finish (light grey) provides a dramatic effect against the distinctly variegated wood grain, playing into today’s highly sought-after modern rustic look.

[NativeStone®](#) is a proprietary combination of natural jute fiber and cement, resulting in a material about 40 percent lighter than standard concrete, incredibly durable and resistant to cracking. Additionally, Native Trails’ state-of-the-art nano-sealing process creates an astonishingly stain and scratch resistant surface that stands the test of time.
