# Before & after kitchens AND BATHS

**RANGE HOODS** Ventilation hoods come in a variety of shapes, styles, and colors. Pick one that's at least as wide as your cooktop.

### *shop smart*

Select a ventilation fan with a CFM rating higher than what you need. Then you can run the vent on a lower—and quieter—setting without sacrificing performance.

### **5** artisan style

Hand hammered from high-quality recycled copper, this graceful range hood is sure to be a conversation piece. 36-Inch Chalet Hood in Antique, \$6,600, Native Trails, [nativetrails.net](http://nativetrails.net)
