the MINIMALIST ENTRY

When decorating with minimalism in mind, it's important that every piece hold a specific purpose with functionality at its core. Our entry is comprised of a console, mirror, catch-all, a potted plant, and a statement seat in lieu of the typical bench.

To offset the potential sterility of the set up, a patterned wallpaper was in order. We opted for a graphic take on the classic palm print to instill a contrasting element between the backdrop and the furnishings.
