

## KITCHENS

# These Are the Top Kitchen Sink Trends That Will Dominate 2018

January 5, 2018 | Iris Benaroya

Techie faucets and stylish tap finishes, as well as styles that stray from stainless steel – here's what your kitchen sink will be wearing in 2018. Hint: Think warm, sultry tones that will give your once-neutral cooking space an instant refresh.

Transport your family to the French countryside with this exquisite copper [Farmhouse Apron-Front Sink](#) by Native Trails. Its luxe hammered design will bring a welcome hit of texture and warmth to your cooking quarters, and its recycled copper material (read: eco-friendly!) is just as fitting in a bright white space as it is in a dark and dramatic one.

Native Trail's luxury NativeStone collection is handmade with sustainably grown jute fibres. But forget the nitty-gritty details for a minute to admire **Olivos**, a smooth basin that's a luxurious alternative to stainless steel. Perfect for an island bar or prep area, indoors or out, this is one under-mount sink we're not over.
