

KBIS Returns to Vegas

2016 marks the third year of the successful Design and Construction Week collaboration, as the KBIS and IBS shows return to Las Vegas next month with expanded floor space, new educational offerings and a host of new products.

42. The Avalon bathtub by **Native Trails (Booth N3000)** is handcrafted of NativeStone, a combination of natural jute fiber and cement, lending the organic aesthetic of concrete while also making the tub lighter, notes the firm. Featuring an oval shape and deep interior, the tub's thick walls provide insulation to keep the water hot. Available in two sizes, the tub is offered in Ash, Slate and Pearl finishes.
