## TAILOR-MADE

From fully customizable kitchens to reclaimed copper soaking tubs to high-tech faucets, *Modern Luxury Interiors South Florida* reports on the latest releases from top kitchen and bath brands.

### Sublime Soak

Earthy and artisanal like its namesake, the Santorini freestanding soaking tub is new from the eco-chic company **Native Trails**, which is renowned for its lavish kitchen and bath products. Bubbling with elegance and romance, the 16-gauge hammered copper tub encourages (literally) elevated relaxation thanks to its pedestal base and sophisticated lines. Choose from three luxury finishes, including antique copper, polished copper (shown at right) and polished nickel.
