2. Concrete has a cool factor, and Native Trails' **FARMHOUSE 3018 NATIVESTONE 30-INCH CONCRETE APRON SINK** (\$1,650) is reinforced with a blend of cement and jute fiber to make it lighter than traditional concrete. It's also sealed with an exclusive self-preserving material that bonds to the molecules of the concrete to make it stain- and scratch-resistant; Pacific Sales, Thousand Oaks and Goleta; pacificsales.com.
